READY

## THE NEXT STEP IN YOUR MUNICIPAL ROAD MAINTENANCE PROGRAM

ColdFuze Flex is a cold-applied crack sealant engineered to meet the demands of municipal road maintenance. With its advanced formulation, there is no need for an expensive hot kettle, nor does your team need to tolerate equipment breakdowns, burn risks, fumes, and slow start/shut down procedures. Seal on more days of the year, and with much faster startups. Scan the QR code to see our full ColdFuze Flex product offerings.
